Metering for Multi-Tenant and Multi-Meter
Properties (NBT-V, NEM-V or NEM-V-ST)
Allocation Request Form**

Designation of Unallocated Credit Due to Unit Vacancy

For unit vacancy

- If there is an Owner/Tenant agreement in place, the unallocated credit will be automatically directed to the owner's account as the customer of record
- If there is no Owner/Tenant agreement in place, the owner may designate in the table below either a Common Area Account or a Benefitting Account (that is not a Common Area Account) to receive the credit
- Unused kWh allocation will also be given to the designated benefiting service account. The Customer is required to select a designated benefiting service account to ensure accurate allocation. Failure to select a designated benefiting service account will result in Southern California Edison rejecting the application. (N)
(N)

Designated Benefitting Account (Common Area or non-Common Area) Address with Unit Number

(T)

D. I represent that the forgoing is the percentage allocation of the generation credits that this company wants to take effect on the start of the next billing period that is at least 30 days following receipt of this form by SCE. Moreover, I understand that these allocations for the Benefitting Accounts shall remain in effect for a minimum of 12 months. If I request a change in the allocation percentages prior to the end of the 12-month period, I will not be charged for up to one change per Benefitting Account in each 12-month period. Subsequent changes to any account within the 12-month period will be charged at \$7.50 per account.

I can receive Qualified Customer information or act on a Qualified Customer's behalf to receive information by completing SCE's Form 14-796: "Authorization To: Receive Customer Information or Act on a Customer's Behalf" (<http://www.sce.com/NR/sc3/tm2/PDF/14-796.pdf>).

I agree that SCE may from time to time release to the California Energy Commission and/or the California Public Utilities Commission information regarding the Owner/Operator's name, the location of each Generating Facility, their capacities and operating characteristics, and Qualified Customer names and account numbers.
